

Vehicle Care & Protection

For all types of vehicles

**With
Added
Biocide**

DIESEL POWER

Fuel Additive

FEATURES & BENEFITS:

- Contains an Upper Cylinder Lubricant which helps combat low sulphur fuels
- Added biocide prevents & kills algae and bacteria in fuel lines and storage tanks.
- Concentrated & economical (1 litre treats 4000 litres of fuel).
- Improves fuel economy and boosts engine performance.
- Reduces diesel smoke.
- Dispenses and absorbs moisture in the fuel allowing it to be harmlessly burnt off.
- Cleans injectors and fuel lines, prolonging filter life.
- Dissolves gums, varnish and wax build up in fuel systems.
- Decarbonises combustion chamber.
- Prevents fuel from waxing up or increasing viscosity in cold climates, reducing wear and tear on fuel pumps.
- Neutral pH.
